- 99.5% UV Protection (reduced fading)
- Reduced condensation
- Increased comfort with less draft in winter and reduced solar heat in summer
- Lower energy bills
- Over 27 years experience in both residential and commercial windows
- Can contribute to LEED credits
- Decrease the size of your HVAC system

High Performance Fiberglass Windows

The SeriousWindows 725 Series is our lowest cost/highest value fiberglass framed product line. The environmentally friendly fiberglass frame offers greater strength and durability than wood and vinyl products. The SeriousWindows 725 Series resists fading, chipping, cracking, expansion and contraction. It is available in a variety of pre-finished colors as well as natural, stainable wood interiors.

Grille Styles

Exterior

Grilles permanently affixed to the outside add to curb appeal while the inside stays smooth and easy to maintain.

Interior

Grilles permanently affixed to the inside create an elegant look for highly visible windows. The outside presents a more subdued grille look.

Simulated Divided Light

The ultimate in authentic looks — permanently applied interior and exterior grilles.
